NIGHT LIGHT

About the photos

Photos in this calendar have all been taken after dark using long exposures and available light from the moon and from streetlights.

The sparks were made by burning steel wool, the coloured orb by swinging christmas lights in a circle and the writing by torchlight.

I have been shooting photos at night for ten years and enjoy the challenge of capturing stars and light that is hard to see. I am also a printmaker and have been making art calendars since 1994.

Find out more on my website: www.rory.com.au

Many thanks and I hope you enjoy your 2016!
